**RE: Ausroad Roadpatching Unit**

Narrandera Shire Council took delivery of an Ausroad Roadpatching Unit on Tuesday the 23 of June 2009.

Councils previous Jetpatching Unit being 11 years of age was also built by Ausroads and it served council very well as maintenance cost were low while its productivity remained high.

The new unit being far more advanced then its predecessor carries out the ever increasing activities required by councils to a high standard with ease and at a low cost.

The new unit being hydraulically driven provides additional room behind the cabin of the truck to carry signs and other types of tools which is necessary in today's forever changing climate.

Although it is early days I am satisfied with the performance of the new unit and have no hesitation in recommending to future customers the Roadpatching unit by Ausroad.

If you have any further enquiries concerning this matter please contact Councils Works Office on telephone 6959 5560, fax 6959 1884 or email at [council@narrandera.nsw.gov.au](mailto:council@narrandera.nsw.gov.au).

Yours faithfully

**Robert Cosgrove**  
**Manager of Works**
